FROM: MARIA WORTMAN-MESHBERGER, AGENCY MANAGER, CHILD CARE AND DEVELOPMENT PROGRAM

SUBJECT: ANNUAL CHANGES TO THE CHILD CARE AND DEVELOPMENT PROGRAM (CCDP) HOUSEHOLD SIZE AND MONTHLY INCOME LIMITS

Every year, the federal government publishes the income figure which establishes Nevada's median income. A percentage of this figure is used to determine a household's eligibility and subsidy level for child care benefits.

The Child Care and Development Program (CCDP) Household Size & Monthly Income Chart shown below contains updated two-tiered income eligibility limits and the 85% maximum income for changes reported during an open certificate period. The income limits on this chart are effective for initial applications received on or after October 1, 2026, and for renewals with start date on or after October 1, 2026.

The Nevada Child Care System (NCCS) has been updated to ensure the correct subsidy level is applied to all new applications and ongoing certificates. Subsidy eligibility remains at or below 41% of the State Median Income (SMI) for initial intake applications, and at or below 49% of SMI for renewal applications.

If you have questions regarding this policy transmittal, please contact CCDP@dss.nv.gov
